

Dear Knitters, Crocheters and Fiber Artists,

We need your help! We plan to yarn bomb Sun Target, a large yellow sculpture at the corner of National and Bennett in front of the Springfield Art Museum, 1111 E. Brookside, Springfield, MO, weather permitting, on the weekend of Oct. 19-20. The installation will be up until Nov. 5.

You can contribute with a piece of any size, shape, color, or design of something you have made. If you have a U.F.O. (unfinished object), that could work :)

Better yet, try making something new and fun - use crazy colors, awesome textures, or learn a new stitch... Then send it to us, and we will sew the pieces together into a patchwork sweater for the sculpture!

Please mail your work in an envelope that will fit through a 12-inch mail slot to RuBert Studios, 1841 East Bergman St., Springfield, MO 65802 or drop off your work at the Springfield Art Museum before Oct. 19.

If you'd like recognition on our website, please write your name, hometown, and blog or website (if you have one) on a piece of paper and pin it to your work. Contributions will not be returned. We plan on wrapping the sculpture the weekend of October 19-20, weather permitting. Please join us if you can -- it's fun to be involved as these projects come to life!

For updates on this project, please visit the [S.A.M. Facebook](#) and [ideaXfactory Facebook](#) pages. Follow us on Twitter [@ArtMuseumSGF](#) and [@ideafactory](#), and on Instagram [#yarnbombsam](#)

Yours truly,
the yarn bombers from ideaXfactory

Questions? email pam@sculpture.net

Imagine after!

Each side of Sun Target is 16" wide and the longest beam is 31'

The entire sculpture is about 63' long and 30' high
